Hello, this is [your name] calling for the Iowa Department of Public Health. The Center for Social and Behavioral Research at the University of Northern Iowa is conducting a study in collaboration with the University of Iowa to find out about the health and well-being of Iowa’s children. I am calling to follow-up with you regarding an information packet your household may have received within the last several weeks.

Phone
Have I reached XXX-XXX-XXXX?

1 = Yes
2 = No [EXIT: I am sorry I must have misdialed. I am sorry to have bothered you. Thank you for your time.]

Children
How many children under age 18, including infants, live in your household?

[ ] [If children = 0, EXIT: Our study is for households with children. I am sorry to have bothered you. Thank you for your time.]

Adult
Are you the adult, age 18 or older, in this household who knows the most about the health and well being of the children in your household?

1 = Yes [Go to Explanation]
2 = No

Speak
May I speak with the adult who is most knowledgeable about the health of the children in the home?

1 = Yes, coming to the phone
2 = No, not available

Could you tell me who to ask for when we callback AND when would be a good time to callback? [NAME] [IMPORT INTO CONTACT NAME]

Hello, this is [your name] calling for the Iowa Department of Public Health. The Center for Social and Behavioral Research at the University of Northern Iowa is conducting a study in collaboration with the University of Iowa to find out about the health and well-being of Iowa’s children. Hello, this is [your name] calling for the Iowa Department of Public Health. The Center for Social and Behavioral Research at the University of Northern Iowa is conducting a study in collaboration with the University of Iowa to find out about the health and well-being of Iowa’s children.

First, do you currently live in the household that the packet was mailed to?

1. Yes [SKIP TO EXPLANATION]
2. No

"Thank you very much, but we can only interview people that the packet was mailed to.”

[CODE 4700]

Explaination

Let me tell you more about the study before we go on. We have selected your address along with many others in Iowa to be included in this study. Your participation in the study is very important to us as your answers will represent many other families in the state. We will group the responses together so that the answers you give will never be reported individually. I will ask questions about the health and well being of one child in your family and a few questions about you. Protecting your child’s identity is very important to us so we will refer to the selected child only by age and whether the child is male or female.

Your participation is voluntary and confidential. Your responses remain anonymous. The study takes about 20 minutes for most people. Risks are minimal and like those experienced in day-to-day life. I would be happy to provide a phone number for you to call to get more information if you have questions about the study.

[If Children = 1]

What is the age and gender of the child in your home?

[ ] [SKIP TO RELATIONSHIP]

[If Children > 1]

In order to select one child in your household as the focus of the interview, please tell me the age and gender of all children under the age of 18 in your household, starting with the youngest.

[Allow respondent to identify up to 11 children]

1.

2.
[IF MORE THAN ONE CHILD IN THE HOUSEHOLD, SYSTEM RANDOMLY SELECTS ONE CHILD FOR STUDY]

Based on the information you provided, we are going to ask health and well being questions about the [AGE/GENDER]

[INTERVIEWER NOTE: If asked, the computer randomly selected which child]
