Page 2 of 6

State, territory, or tribal entity

- AL
- AK
- AZ
- AR
- CA
- CO
- CT
- DE
- FL
- GA
- HI
- ID
- IL

List territory or tribal entity

\_\_\_\_\_

Multiple states

\_\_\_\_\_

Topic(s) - check all that apply

- Diabetes
- Cardiovascular disease
- Obesity
- HIV infection
- Hepatitis
- Early childhood caries
- Oropharyngeal cancer
- Periodontal disease
- Tobacco use
- Screenings
- Referrals
- Co-location of services
- Oral health preventive services (eg, fluoride)
- Accountable Care Organizations
- Tooth decay
- Geriatrics
- Pregnancy or Ob/Gyn
- Diet or nutrition
- Other

Other topic (describe)

\_\_\_\_\_

Report title, citation, or publishing agency

\_\_\_\_\_

CDC Domain of Chronic Disease Prevention

Epidemiology & Surveillance - systems used to track chronic diseases and their risk factors, including use of health information technology.

Environmental Approaches - changes in policies and social/physical environments to promote health and healthy behaviors.

Health Care System Interventions - improve effective delivery and use of clinical and high-value preventive services.

Community-Clinical Links - community interventions to help patients prevent and manage chronic diseases with guidance from their doctor (e.g., smoking quit-lines).

- Epidemiology & Surveillance
- Environmental Approaches
- Health Care System Interventions
- Community-Clinical Links

Publication type

- Published article (peer-reviewed)
- Report (technical, non-technical, activity, etc.)
- Abstract/Presentation
- Website
- Other

Website (add url)

\_\_\_\_\_

Other publication type (describe)

\_\_\_\_\_

Name of organization that implemented the intervention

\_\_\_\_\_

Type of organization that implemented the intervention (i.e directly interacted with the population, not organizations that might have provided scientific or financial support)

- Public health agency
- Medical care system
- Managed care organization
- Other clinical organization
- Academic organization
- Community-based organization
- Other
- Unknown

Type of public health agency

- Federal
- State
- Local

Other type of organization (describe)

\_\_\_\_\_

Intervention components

- Provision of information
- Behavioral intervention
- Provider/workforce trainings
- Environmental intervention
- Legislation/Regulation/Enforcement
- Clinical
- Public health or medical care system intervention (eg, care coordination)
- Campaign
- Other
- Not described

Briefly describe

\_\_\_\_\_

Clinical intervention: provider type

\_\_\_\_\_

Target population (briefly identify)

\_\_\_\_\_

Setting in which the intervention was implemented

- Clinic or health-care provider office
- Community-based organization
- Academic institution
- School
- Nursing home/senior center
- Community-wide
- Child day care center or WIC center
- Other

Other setting (describe)

\_\_\_\_\_

**Primary outcome measure(s):**

Patient behavior  Yes  
 No

Describe

\_\_\_\_\_

Provider behavior  Yes  
 No

Describe

\_\_\_\_\_

Intermediate or mediating outcome  Yes  
 No

Describe

\_\_\_\_\_

Health effect  Yes  
 No

Describe

\_\_\_\_\_

Severity of illness  Yes  
 No

Describe

\_\_\_\_\_

Other primary outcome measure  Yes  
 No

Describe other primary outcome measure

\_\_\_\_\_

**Description of the intervention: What is the proposed intervention and how is it being delivered?**

Scale of focus (individual, family, group, community, or general public)

\_\_\_\_\_

Services, materials, and other information delivered

\_\_\_\_\_

Policy or law enacted	_____
Who delivered the intervention? (e.g., health professional, volunteer, peer)	_____
How did the target population learn about the intervention?	_____
Time period, frequency, and duration of the intervention	_____
Scope of the intervention (i.e. how many members of the target group(s) were reached by the intervention)	_____
Extent of coordination with other agencies/organizations and the target community	_____
Program dates	_____
Funding sources	_____
URL (additional info or documents)	_____
Notes	_____
